

INF200 Simulation Project in Advanced Programming

Modelling the Ecosystem of Rossumøya

By: Ivan Cherednikov,
ivch@nmbu.no
2020.01.24

Objectives

- **Develop a program**

Develop a program for the simulation of population dynamics on Rossumøya

- **Document**

Provide full documentation for your work throughout the development process

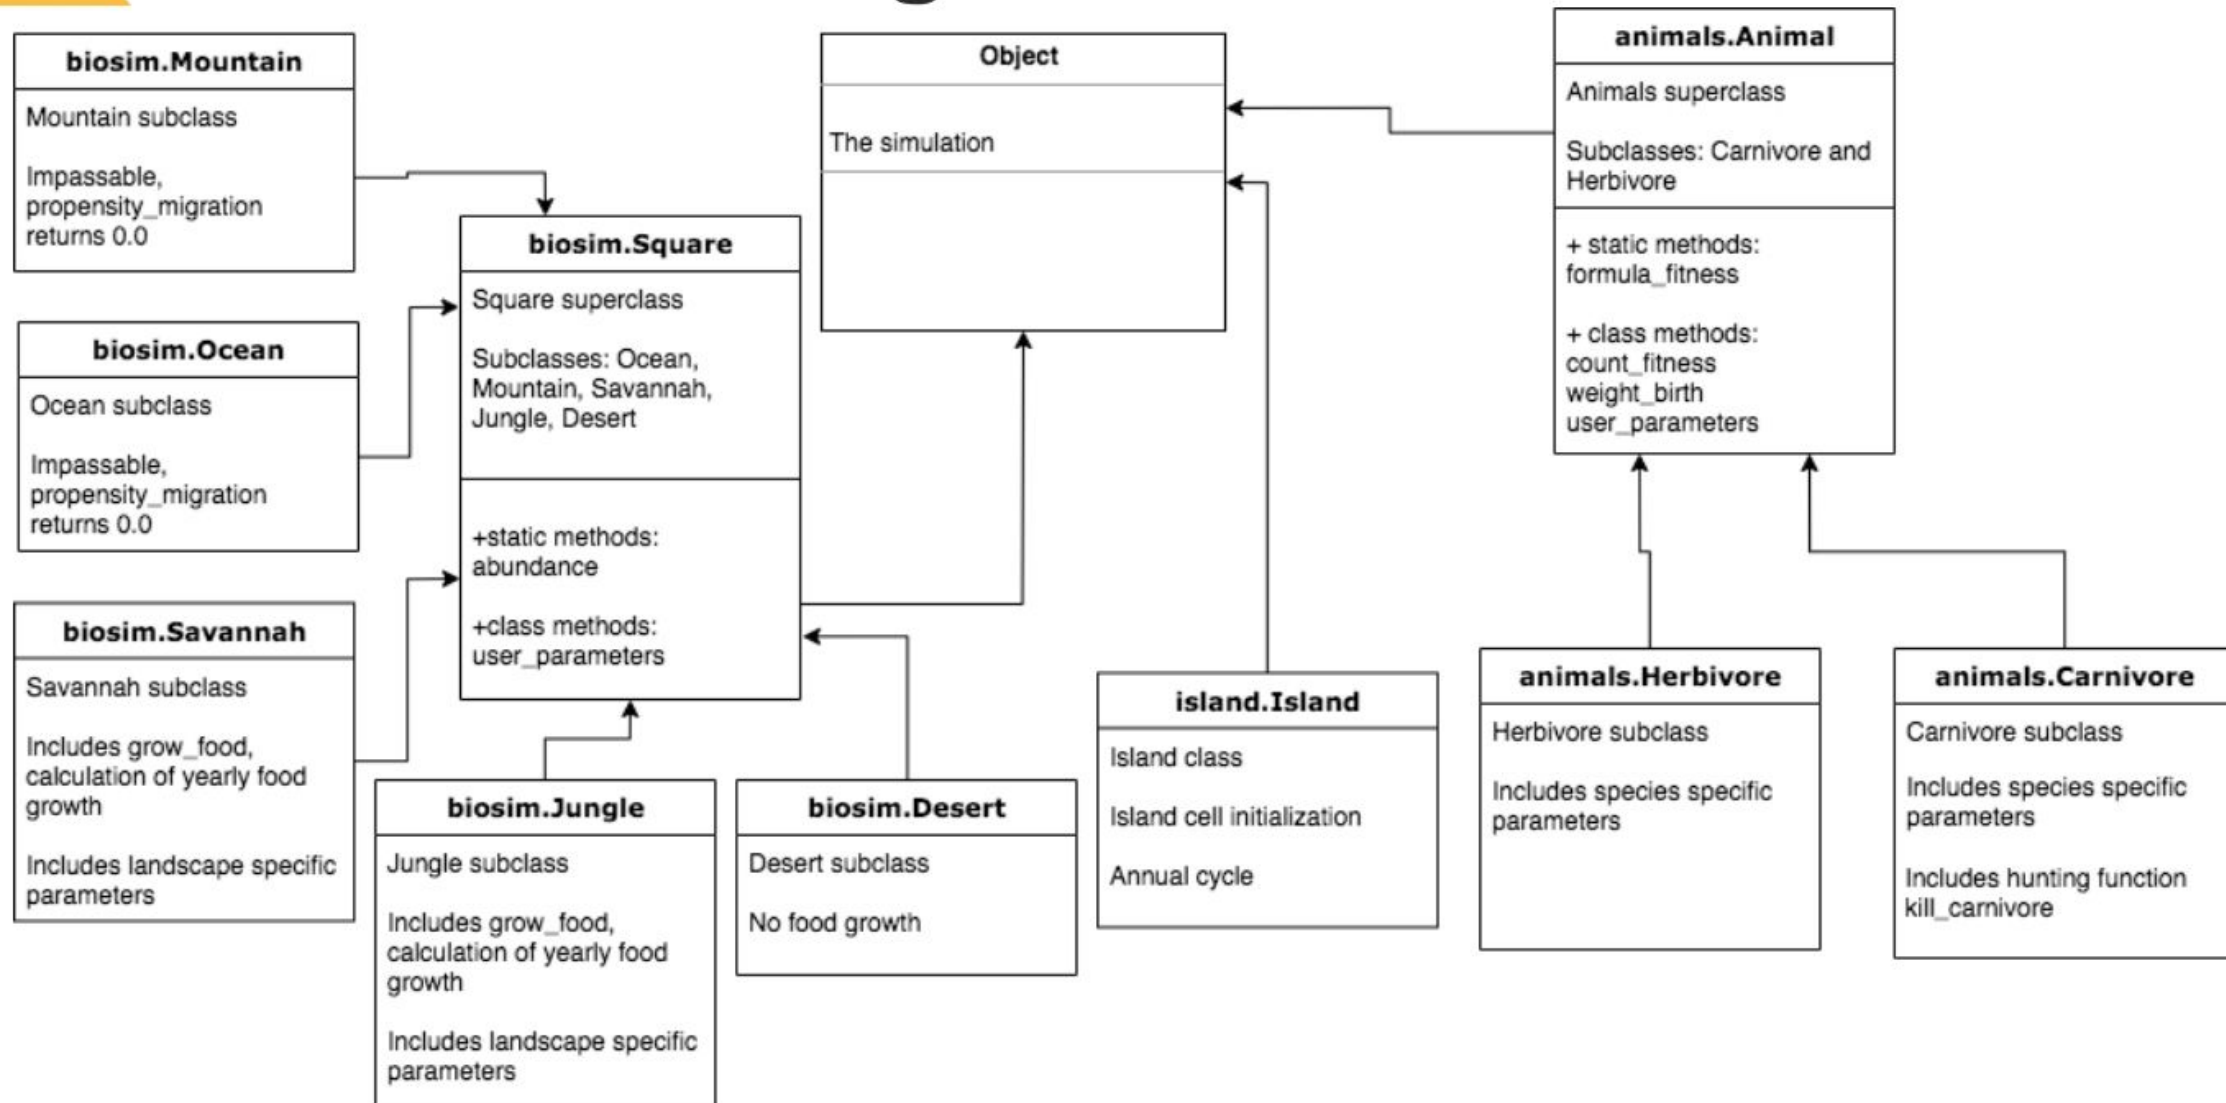

- **Visualize**

Visualize your population dynamics simulation with an animated interactive plot

Project timeline

Class structure diagram

Limitations & improvements

- Time was my main limitation, did not have enough time to do everything

THANK YOU

for watching
